The machines offers the following range of benefits:

- Quiet, emission-free operation in the most sensitive work environments
- Operators can easily drive through standard doorways, work close to buildings or around obstacles, and access overhead work from aisles and other congested areas
- Works in tight spaces with zero tailswing and front arm swing in stowed and raised positions
- Compact chassis for narrow aisle access with a jib boom allowing precise positioning above or below
- Tight turning radius and minimal tailswing make them ideal for maneuvering in confined areas
